

104TH CONGRESS
1ST SESSION

S. 1369

To amend the Federal Food, Drug, and Cosmetic Act to facilitate the development, approval, and use of medical devices to maintain and improve the public health and quality of life of individuals, and for other purposes.

IN THE SENATE OF THE UNITED STATES

OCTOBER 31, 1995

Mr. WELLSTONE introduced the following bill; which was read twice and referred to the Committee on Labor and Human Resources

A BILL

To amend the Federal Food, Drug, and Cosmetic Act to facilitate the development, approval, and use of medical devices to maintain and improve the public health and quality of life of individuals, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE AND REFERENCE.**

4 (a) SHORT TITLE.—This Act may be cited as the
5 “Medical Technology, Public Health, and Innovation Act
6 of 1995”.

7 (b) REFERENCE.—Whenever in this Act an amend-
8 ment or repeal is expressed in terms of an amendment

1 to, or a repeal of, a section or other provision, the ref-
2 erence shall be considered to be made to a section or other
3 provision of the Federal Food, Drug, and Cosmetic Act
4 (21 U.S.C. 321 et seq.).

5 **SEC. 2. FINDINGS; MISSIONS STATEMENT.**

6 (a) FINDINGS.—The Congress finds the following:

7 (1) While the United States appropriately puts
8 a top priority on ensuring the safety and efficacy of
9 medical technologies that are introduced into the
10 marketplace the administration of such regulatory
11 effort is causing the United States to lose its leader-
12 ship role in producing innovative, top-quality medical
13 devices.

14 (2) One of the key components of the medical
15 device regulatory process that contributes to the
16 United States losing its leadership role in medical
17 device development is the inordinate amount of time
18 it takes for medical technologies to be reviewed by
19 the United States Food and Drug Administration.

20 (3) The most important result of the United
21 States losing its leadership role is that patients in
22 the United States do not have access to new medical
23 technology in a timely manner.

24 (4) Delayed patient access to new technology
25 results in lost opportunities to save lives, to reduce

1 hospitalization and recovery time, and to improve
2 the quality of life of patients.

3 (5) The economic benefits that the United
4 States medical device industry, which is composed
5 principally of smaller companies, has provided
6 through growth in jobs and global trade are threat-
7 ened by the slow and unpredictable regulatory proc-
8 ess at the Food and Drug Administration.

9 (6) The pace and predictability of the medical
10 device regulatory process, together with a perceived
11 adversarial relationship with the Food and Drug Ad-
12 ministration, are in part responsible for the increas-
13 ing tendency of United States medical device compa-
14 nies to shift research, product development, and
15 manufacturing offshore, at the expense of American
16 jobs, patients, and leading edge clinical research.

17 (b) MISSION STATEMENT.—This legislation seeks to
18 improve the timeliness, effectiveness, and predictability of
19 the medical device approval process for the benefit of Unit-
20 ed States patients and the United States economy by—

21 (1) providing for the use of nationally and
22 internationally recognized performance standards to
23 assist the Food and Drug Administration in deter-
24 mining the safety and effectiveness of medical de-
25 vices;

1 (2) facilitating communication between medical
2 device companies and the Food and Drug Adminis-
3 tration;

4 (3) redefining clinical testing requirements to
5 reflect the nature of device evolution; and

6 (4) targeting the use of Food and Drug Admin-
7 istration resources on those devices that are likely to
8 have serious adverse health consequences.

9 **SEC. 3. PERFORMANCE STANDARDS.**

10 Section 514 (21 U.S.C. 360d) is amended by adding
11 at the end thereof the following new subsection:

12 “ESTABLISHMENT AND ADOPTION OF OTHER STANDARDS

13 “(c)(1) The Secretary—

14 “(A) may establish pursuant to subsection (b)
15 performance standards to assist in determining the
16 safety or effectiveness of class III devices under sec-
17 tion 515; and

18 “(B) may amend or revoke the performance
19 standards established under subparagraph (A).

20 “(2) The Secretary shall, within 365 days of the date
21 of enactment of this subsection, adopt performance stand-
22 ards established by nationally and internationally recog-
23 nized standard-setting entities and use the standards
24 when applicable to assist in determining the safety and
25 effectiveness of class III devices under section 515.

1 “(3) The Secretary may not require, as the condition
2 for approving a premarket approval application under sec-
3 tion 515, the conformity of a class III device with a per-
4 formance standard established or adopted pursuant to
5 paragraph (1) or (2), respectively, if the applicant submits
6 data other than that required by the performance stand-
7 ard to demonstrate a reasonable assurance of the safety
8 and effectiveness of the device.

9 “(4) The Secretary, in lieu of requiring data dem-
10 onstrating the conformity of a class III device with a
11 standard described in paragraph (1) and (2), shall accept
12 certification by the applicant that the device conforms with
13 each standard identified in the application.

14 “(5) The Secretary may revoke the performance
15 standards adopted under paragraph (2).

16 “(6) A performance standard established under this
17 subsection for a device—

18 “(A) shall include provisions to provide reason-
19 able assurance of the safe and effective performance
20 of the device;

21 “(B) shall, where necessary to provide reason-
22 able assurance of the safe and effective performance
23 of the device, include—

24 “(i) provisions with respect to the con-
25 struction, components, ingredients, and prop-

1 erties of the device and the compatibility of the
2 device with power systems and connections to
3 the systems;

4 “(ii) provisions for the testing (on a sam-
5 ple basis or, if necessary, on an individual
6 basis) of the device or, if it is determined that
7 no other more practicable means are available
8 to the Secretary to assure the conformity of the
9 device to the standard, provisions for the test-
10 ing (on sample basis or, if necessary, on an in-
11 dividual basis) of the device by the Secretary or
12 by another person at the direction of the Sec-
13 retary;

14 “(iii) provisions for the measurement of
15 the performance characteristics of the device;

16 “(iv) provisions requiring that the results
17 of each or certain of the tests of the device re-
18 quired to be made under clause (ii) demonstrate
19 that the device is in conformity with those por-
20 tions of the standard for which the test or tests
21 were required; and

22 “(v) a provision requiring that the sale and
23 distribution of the device be restricted to the ex-
24 tent that the sale and distribution of the device

1 is restricted under a regulation under section
 2 520(e); and
 3 “(C) shall, where appropriate, require the use
 4 and prescribe the form and content of labeling for
 5 the proper installation, maintenance, operation, and
 6 use of the device.”.

7 **SEC. 4. PREMARKET APPROVAL.**

8 (a) APPLICATION.—Section 515(c) (21 U.S.C.
 9 360e(c)) is amended—

10 (1) in paragraph (1)—

11 (A) by striking subparagraph (D); and

12 (B) by redesignating subparagraphs (E),
 13 (F), and (G) as subparagraphs (D), (E), and
 14 (F), respectively; and

15 (2) by adding at the end thereof the following
 16 new paragraphs:

17 “(3)(A) An applicant—

18 “(i) shall include in an application described in
 19 paragraph (1) an identifying reference to any appli-
 20 cable performance standard established or adopted
 21 under paragraph (1) or (2) of section 514(c), respec-
 22 tively; and

23 “(ii) shall include in the application—

24 “(I) a certification by the applicant as de-
 25 scribed in section 514(c)(4), that the device

1 complies with the applicable performance stand-
2 ard; or

3 “(II) data to support the safety or effec-
4 tiveness of the device.

5 “(B)(i) Except as provided in clause (ii), the Sec-
6 retary may not require an applicant who submits an appli-
7 cation for premarket approval for a class III device under
8 paragraph (1) to submit preclinical data and information
9 regarding the device relevant to a performance standard
10 established or adopted under paragraph (1) or (2) of sec-
11 tion 514(c), respectively, if such standard defines perform-
12 ance or other specifications for the device, and the appli-
13 cant certifies that the device conforms to the standard.

14 “(ii) The Secretary may require an applicant de-
15 scribed in clause (i) to submit preclinical data and infor-
16 mation regarding a class III device if additional informa-
17 tion or data are necessary to protect patient safety.

18 “(C) The Secretary shall require an applicant who
19 certifies that a device conforms to an applicable perform-
20 ance standard established or adopted under paragraph (1)
21 or (2) of section 514(c), respectively to maintain data
22 demonstrating such conformance for a period of time that
23 is equal to the period of time for the design and expected
24 life of the device and to make the data available to the
25 Secretary upon request.

1 “(D) The Secretary may deny, withdraw, or tempo-
2 rarily suspend approval of a premarket approval applica-
3 tion for a class III device if—

4 “(i) the Secretary determines that the device
5 does not conform to an applicable performance
6 standard (on which the applicant relied) established
7 or adopted under paragraph (1) or (2) of section
8 514(c), respectively; and

9 “(ii) such conformance is considered by the Sec-
10 retary to be material in approving the device.

11 “(4) The Secretary shall accept retrospective or his-
12 torical clinical data as a control or for use in determining
13 whether there is a reasonable assurance of device safety
14 and effectiveness if the data are available and the effects
15 of the device on disease progression are clearly defined and
16 well understood.

17 “(5) The Secretary may not require the sponsor of
18 an application to conduct clinical trials for a device using
19 randomized controls unless—

20 “(A)(i) such controls are scientifically and ethi-
21 cally feasible;

22 “(ii) the effects of the device on disease pro-
23 gression are not clearly defined and well understood
24 as determined by the Secretary; and

1 “(iii) retrospective or historical data are not
2 available that meet the standards of the Secretary
3 for quality and completeness; or

4 “(B) such controls are necessary to support
5 specific marketing claims.

6 “(6) The Secretary may not require in a supplement
7 to a premarket approval application data from randomized
8 clinical trials for a modification to a device if—

9 “(A) the modification does not substantially
10 and adversely affect safety or effectiveness; and

11 “(B) the modified device has the same intended
12 use and is intended for similar patient populations
13 as the approved device.”.

14 (b) ACTION ON APPLICATION.—Section 515(d) (21
15 U.S.C. 360e(d)) is amended—

16 (1) in paragraph (1)(A), by striking “paragraph
17 (2) of this subsection” each place it appears and in-
18 serting “paragraph (6)”;

19 (2) by redesignating paragraphs (2) and (3) as
20 paragraphs (6) and (7), respectively; and

21 (3) by inserting after paragraph (1) the follow-
22 ing new paragraphs:

23 “(2) Each premarket approval application and sup-
24 plement received by the Secretary under subsection (c)
25 shall be reviewed in the following manner to achieve final

1 action on the application within 180 days of the receipt
2 of the application:

3 “(A) The Secretary shall make a determination
4 within 30 days of the receipt of an application filed
5 under subsection (c) of whether the application sat-
6 isfies the content requirements of paragraphs (1)
7 and (3) of subsection (c) and applicable regulations,
8 and the Secretary shall notify the applicant of the
9 determination and whether the application has been
10 accepted or has not been accepted for review for pre-
11 market approval. If the Secretary fails to notify the
12 applicant within the 30-day period that the applica-
13 tion is not sufficiently complete to permit a sub-
14 stantive review, the application shall be considered
15 as filed by the Secretary.

16 “(B) The Secretary shall, within 45 days after
17 the date of the acceptance of an application for re-
18 view under subparagraph (A)—

19 “(i) provide the applicant the opportunity
20 for a meeting (or teleconference) with the Sec-
21 retary to—

22 “(I) inform the applicant of the gen-
23 eral progress and status of the application;

1 “(II) advise the applicant of defi-
2 ciencies in the application that have not
3 been communicated to the applicant.

4 The applicant shall have the right to be informed in
5 writing with respect to the information commu-
6 nicated to the applicant during the meeting or tele-
7 conference under subclauses (I) and (II).

8 “(ii) determine whether an advisory panel
9 should be convened by the Secretary to review
10 the application or to consider an issue related
11 to the application.

12 “(C) The Secretary shall, within 90 days after
13 the date of the acceptance of an application for re-
14 view under subparagraph (A) provide an applicant
15 the opportunity for a meeting (or teleconference)
16 with the Secretary to—

17 “(i) inform the applicant of the general
18 progress and status of the application;

19 “(ii) review actions taken by the applicant
20 to correct deficiencies identified at the 45-day
21 meeting described in subparagraph (B);

22 “(iii) advise the applicant of the defi-
23 ciencies in the application that have not been
24 communicated to the applicant; and

1 “(iv) review the proposed labeling for the
2 device.

3 The applicant shall have the right to be informed in
4 writing with respect to the information commu-
5 nicated to the applicant during the meeting or tele-
6 conference under clauses (i) through (iv).

7 “(D)(i) When an advisory panel is convened
8 under subparagraph (B)(ii) to review an application
9 or to consider an issue related to the application, the
10 Secretary shall within 15 days after the close of the
11 advisory panel meeting provide the applicant the op-
12 portunity for a meeting (or teleconference) with the
13 Secretary to identify any remaining issues with re-
14 spect to the approval of the application.

15 “(ii) If an advisory panel is not convened under
16 subparagraph (B)(ii), the Secretary shall, within 120
17 days after the date of the acceptance of an applica-
18 tion for review under subparagraph (A), provide the
19 applicant the opportunity for a meeting (or tele-
20 conference) with the Secretary to—

21 “(I) inform the applicant of the general
22 progress and status of the application;

23 “(II) review the actions taken to correct
24 deficiencies identified in the application at the

1 90-day meeting described in subparagraph (C);
2 and

3 “(III) advise the applicant of the defi-
4 ciencies in the application that have not been
5 communicated to the applicant.

6 “(iii) The applicant shall have the right to be
7 informed in writing with respect to the information
8 communicated to the applicant during the meeting
9 or teleconference under clauses (i) and (ii).

10 “(E) The Secretary shall, within 150 days after
11 the date of the acceptance of an application for re-
12 view under subparagraph (A), notify the applicant of
13 the decision of the Secretary to approve or dis-
14 approve the application.

15 “(F) The Secretary shall exclude the time that
16 an applicant takes to respond to the Secretary’s re-
17 quests for additional data or information in deter-
18 mining when the 45-day, 90-day, 120-day and 150-
19 day periods described in subparagraphs (B), (C),
20 (D), and (E) expire.

21 “(3) To permit better treatment or better diagnoses
22 of life-threatening or irreversibly debilitating diseases or
23 conditions, the Secretary shall expedite the review for de-
24 vices—

25 “(A) representing breakthrough technologies;

1 “(B) offering significant advantages over exist-
2 ing approved alternatives; or

3 “(C) for which accelerated availability is in the
4 best interest of the public health.

5 “(4)(A) The Secretary shall annually publish a status
6 report on the premarket clearance or approval of applica-
7 tions and other device submissions.

8 “(B) The report described in subparagraph (A) shall
9 include—

10 “(i) a specific statement from the Secretary
11 concerning the performance of the Food and Drug
12 Administration in reducing the backlog in the re-
13 viewing of applications for premarket clearance or
14 approval for a device and meeting statutory time
15 limitations applicable to the review of the applica-
16 tions;

17 “(ii) with respect to devices, data (which shall
18 be provided by the Center for Devices and Radiologi-
19 cal Health and each division of the Office of Device
20 Evaluation of the Center for Devices and Radiologi-
21 cal Health) on—

22 “(I) the number of premarket approval ap-
23 plications, supplements, premarket notifica-
24 tions, and applications for investigational device

1 exemptions, not accepted for filing by the Sec-
2 retary;

3 “(II) the total time (beginning on the date
4 of the filing of an application and ending on the
5 date of the clearance or approval of the applica-
6 tion) required to review the premarket approval
7 applications, supplements, premarket notifica-
8 tions, and applications for investigational device
9 exemptions;

10 “(III) the total time (excluding the time
11 periods permitted for an applicant to prepare
12 and submit to the Secretary responses or addi-
13 tional information or data requested by the Sec-
14 retary) as calculated by the Food and Drug Ad-
15 ministration to complete the review of each pre-
16 market approval application, supplement, pre-
17 market notification, and application for inves-
18 tigational device exemption;

19 “(IV) the number of adverse decisions
20 made with respect to the applications and sup-
21 plements described in subclause (II);

22 “(V) the number of nonapprovable letters
23 for device submissions;

24 “(VI) the number of deficiency letters for
25 device submissions;

1 “(VII) the number of times applicants are
2 required to supply information during the re-
3 view of an application or supplement described
4 in subclause (II); and

5 “(VIII) the performance of the actions de-
6 scribed in paragraph (2), including performance
7 information with respect to the number of pre-
8 market approval applications that were or were
9 not reviewed within the time limitations de-
10 scribed in such paragraph and the time nec-
11 essary to carry out each of the actions; and

12 “(iii) baseline data for the data described in
13 subclauses (I) through (VII) of clause (ii) for the
14 preceding year.

15 “(5) The Secretary shall complete the review of all
16 premarket approval supplements that do not contain clini-
17 cal data within 90 days of the receipt of a supplement
18 that has been accepted for filing.”.

19 (c) ELIMINATION OF PREMARKET APPROVAL OF
20 SUPPLEMENTS.—The Secretary of Health and Human
21 Services shall eliminate premarket approval of supple-
22 ments that relate to manufacturing and product changes
23 of a device that can be demonstrated through appropriate
24 protocols or other methods to not affect adversely the safe-
25 ty or effectiveness of a device. The Secretary of Health

1 and Human Services shall require the manufacturer of a
2 device to submit to the Secretary of Health and Human
3 Services any information relied upon to support a device-
4 related change that is not subject to premarket approval
5 of a supplement to an application approved under section
6 515 of the Federal Food, Drug, and Cosmetic Act (21
7 U.S.C. 360e). The information shall be made a part of
8 the device master record. The information shall be main-
9 tained for a period of time equal to the period of time
10 for the design and expected life of the device, but not less
11 than 2 years after the date of release of the device for
12 commercial distribution by the manufacturer.

13 **SEC. 5. PREMARKET NOTIFICATION REQUIREMENTS.**

14 (a) EXEMPTION FOR CLASS I AND II DEVICES.—Sec-
15 tion 510 (21 U.S.C. 360) is amended by adding at the
16 end thereof the following new subsection:

17 “(l) Within 365 days of the date of enactment of this
18 section, the Secretary shall exempt from the notification
19 requirement under subsection (k) class I and II devices
20 that should not be subject to the notification requirement
21 because such notification is not necessary to provide a rea-
22 sonable assurance of the safety and effectiveness of the
23 devices. Prior to making such determination, the Secretary
24 shall provide an opportunity for notice and comment with

1 respect to the appropriateness of the exemption for the
2 class I and II devices.”.

3 (b) LIMITATION ON NOTIFICATION.—

4 (1) IN GENERAL.—The Secretary of Health and
5 Human Services shall not enforce the requirement
6 for additional notifications under section 510(k) of
7 the Federal Food, Drug, and Cosmetic Act (21
8 U.S.C. 360(k)) for a change or modification to a de-
9 vice initially classified under section 513(f) of the
10 Federal Food, Drug, and Cosmetic Act (21 U.S.C.
11 360c(f)) that—

12 (A) is other than a major change or a
13 major modification in the intended use;

14 (B) is supported by nonclinical data or in-
15 formation, when appropriate; and

16 (C) can be shown to not adversely affect
17 the safety and effectiveness of the device.

18 (2) MAINTENANCE OF NOTIFICATION DATA.—

19 The Secretary of Health and Human Services shall
20 require the manufacturer of a device to submit to
21 the Secretary of Health and Human Services all
22 data and information relied upon to document that
23 a change or modification of a device described in
24 paragraph (1) does not require an additional notifi-
25 cation under section 510(k). The data and informa-

1 tion shall be made a part of the device master
 2 record. The data and information shall be main-
 3 tained for a period of time equal to the period of
 4 time for the design and expected life of the device,
 5 but not less than 2 years after the date of release
 6 of the device for commercial distribution by the
 7 manufacturer.

8 **SEC. 6. INVESTIGATIONAL DEVICE EXEMPTION.**

9 (a) REGULATIONS.—Section 520(g) (21 U.S.C.
 10 360j(g)) is amended—

11 (1) by redesignating paragraphs (4) and (5) as
 12 paragraphs (5) and (6), respectively; and

13 (2) by inserting after paragraph (3) the follow-
 14 ing new paragraph:

15 “(4) The Secretary shall, within 120 days of the date
 16 of enactment of this paragraph, by regulation amending
 17 the content of part 812 of title 21 of the Code of Federal
 18 Regulations, amend the procedures with respect to the ap-
 19 proval of studies under this subsection as follows:

20 “(A) The regulation shall include provisions
 21 that require the Secretary to permit the sponsor to
 22 meet with the Secretary prior to the submission of
 23 an application to develop a protocol for a study sub-
 24 ject to the regulation, that require that the protocol
 25 shall be agreed upon in writing by the sponsor and

1 the Secretary, and that set forth a time limitation
2 for the sponsor to conduct a followup of a study.

3 “(B) The regulation shall require the Secretary
4 to permit developmental changes in devices subject
5 to the regulation in response to information gathered
6 during the course of an investigation without requir-
7 ing an additional approval of an application for an
8 investigational device exemption, or the approval of
9 a supplement to the application, if the changes meet
10 the following requirements:

11 “(i) The changes do not constitute a sig-
12 nificant change in the design of the product or
13 a significant change in basic principles of oper-
14 ation.

15 “(ii) The changes do not adversely affect
16 patient safety.

17 The regulation shall require that such a change be
18 documented in records the applicant is required to
19 maintain with respect to the investigational device
20 exemption.

21 “(C) The regulation shall provide for the use of
22 an investigational device for diagnosis or treatment
23 use under a protocol or investigational device exemp-
24 tion if the following requirements are met:

1 “(i) The device is intended to treat or di-
2 agnose a serious or immediately life-threatening
3 disease.

4 “(ii) There is no comparable or satisfac-
5 tory device or other therapy available to treat
6 or diagnose that disease in the intended patient
7 population.

8 “(iii) The device is under investigation in
9 a controlled clinical trial under an investiga-
10 tional device exemption in effect for the trial or
11 all clinical trials for the device have been com-
12 pleted.

13 “(iv) The sponsor of the controlled clinical
14 trial is actively pursuing marketing approval of
15 the investigational device with due diligence.

16 “(D) The regulation shall require the Secretary
17 to consult with advisory panels, which have the ap-
18 propriate expertise, with respect to the establishment
19 of an appropriate time limitation for the conduct of
20 a followup study by the sponsor of the study.

21 (b) CONFORMING AMENDMENTS.—Section 517(a)(7)
22 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C.
23 360g(a)(7)) is amended—

24 (1) by striking “section 520(g)(4)” and insert-
25 ing “section 520(g)(5)”; and

1 (2) by striking “section 520(g)(5)” and insert-
 2 ing “section 520(g)(6)”.

3 **SEC. 7. ESTABLISHMENT OF A POLICY AND PERFORMANCE**
 4 **REVIEW PANEL.**

5 Chapter IX of the Federal Food, Drug, and Cosmetic
 6 Act (21 U.S.C. 901 et seq.) is amended by adding at the
 7 end thereof the following new section:

8 **“SEC. 906. POLICY AND PERFORMANCE REVIEW PANEL.**

9 “(a) ESTABLISHMENT.—There is established a panel
 10 to be known as the Food and Drug Policy and Perform-
 11 ance Review Panel (hereafter referred to in this section
 12 as the ‘Panel’).

13 “(b) MEMBERSHIP.—The members of the Panel shall
 14 be appointed by the Secretary in accordance with sub-
 15 section (d)(1) and shall include—

16 “(1) individuals with expertise in medical, sci-
 17 entific, and health policy and regulatory issues;

18 “(2) representatives of industry, voluntary
 19 health associations, and patient advocacy groups;
 20 and

21 “(3) representatives of the Food and Drug Ad-
 22 ministration.

23 “(c) TERMS.—

24 “(1) IN GENERAL.—Each member of the Panel
 25 shall serve for a term of not more than 3 years and

1 the terms of office of such members shall be stag-
2 gered.

3 “(2) REAPPOINTMENT.—Each member of the
4 Panel may be reappointed, but may not serve more
5 than 3 consecutive terms.

6 “(3) VACANCIES.—Any vacancy in the Panel
7 shall not affect the powers of the Panel and shall be
8 filled in the same manner as the original appoint-
9 ment.

10 “(d) ORGANIZATIONAL STRUCTURE.—

11 “(1) IN GENERAL.—The Chairperson of the
12 Panel shall organize the Panel in a manner that will
13 ensure that there is a portion of the membership of
14 the Panel monitoring the activities of each Center
15 within the Food and Drug Administration. The
16 membership of the Panel shall be composed of indi-
17 viduals with expertise necessary to ensure appro-
18 priate review of the performance of each Center.

19 “(2) DEFINITION.—For the purposes of this
20 section, the term ‘Center’ means the Center for De-
21 vices and Radiological Health, Center for Drug
22 Evaluation and Research, Center for Biologics Eval-
23 uation and Research, Center for Food Safety and
24 Applied Nutrition, Center for Veterinary Medicine,
25 and Center for Toxicological Research.

1 “(e) CHAIRPERSON AND VICE CHAIRPERSON.—The
2 Secretary shall select a Chairperson and Vice Chairperson
3 from among the members of the Panel.

4 “(f) INITIAL MEETING.—Not later than 30 days after
5 the date on which all members of the Panel have been
6 appointed, the Panel shall hold its first meeting.

7 “(g) MEETINGS.—The Panel shall meet at the call
8 of the Chairperson.

9 “(h) QUORUM.—A majority of the members of the
10 Panel shall constitute a quorum, but a lesser number of
11 members may hold hearings.

12 “(i) DUTIES.—The Panel shall—

13 “(1) monitor the activities carried out by the
14 Secretary through the Commissioner of Food and
15 Drugs;

16 “(2) review the performance of the Food and
17 Drug Administration to determine if the Food and
18 Drug Administration is carrying out its mission to
19 protect and promote the public health and is devel-
20 oping appropriate policy and effective regulations to
21 carry out its mission;

22 “(3) review the performance of each Center in
23 accordance with subsection (d)(1);

1 “(4) meet at least twice annually with appro-
2 priate management officials of the Food and Drug
3 Administration and representatives of each Center;

4 “(5) participate in the development of agency
5 guidelines; and

6 “(6) seek to facilitate the international harmo-
7 nization of regulatory requirements, while ensuring
8 that a product that is subject to the provisions of
9 this Act, and that is marketed in the United States,
10 is safe and effective.

11 “(j) REPORT.—The Panel shall annually prepare and
12 submit to the Committee on Commerce of the House of
13 Representatives and the Committee on Labor and Human
14 Resources of the Senate a report that evaluates the per-
15 formance of the Food and Drug Administration (including
16 a description of the activities that the Food and Drug Ad-
17 ministration has successfully or unsuccessfully carried
18 out) and includes a recommendation on the administrative
19 modifications needed to improve such performance.

20 “(k) HEARINGS.—The Panel may hold such hearings,
21 sit and act at such times and places, take such testimony,
22 and receive such evidence as the Panel considers advisable
23 to carry out the purposes of this Act.

24 “(l) INFORMATION FROM FEDERAL AGENCIES.—The
25 Panel may secure directly from any Federal department

1 or agency such information as the Panel considers nec-
2 essary to carry out the provisions of this Act. Upon re-
3 quest of the Chairperson of the Panel, the head of such
4 department or agency shall furnish such information to
5 the Panel.

6 “(m) POSTAL SERVICES.—The Panel may use the
7 United States mails in the same manner and under the
8 same conditions as other departments and agencies of the
9 Federal Government.

10 “(n) DETAIL OF GOVERNMENT EMPLOYEES.—Any
11 Federal Government employee may be detailed to the
12 Panel without reimbursement, and such detail shall be
13 without interruption or loss of civil service status or privi-
14 lege.

15 “(o) PROCUREMENT OF TEMPORARY AND INTERMIT-
16 TENT SERVICES.—The Chairperson of the Panel may pro-
17 cure temporary and intermittent services under section
18 3109(b) of title 5, United States Code, at rates for individ-
19 uals which do not exceed the daily equivalent of the annual
20 rate of basic pay prescribed for level V of the Executive
21 Schedule under section 5316 of such title.

22 “(p) TERMINATION OF THE PANEL.—The termi-
23 nation provisions of section 14 of the Federal Advisory

1 Committee Act (5 U.S.C. App.) shall not apply to the
 2 Panel.”.
